 [in/cbrje](https://in.cbrje)

## SUMMARY

Technically skilled operation researcher, confident in metaheuristic design, implementation, and deployment. Able to manage a project including scoping, data collection, interviewing, and stakeholder management.

## SKILLS

**Languages:** All programming languages

**Technologies:** Linux, Docker, Kubernetes, PKI, Nix.

## PROJECTS

Technology	<b>Scheduling System API</b> Main repository for the backend API of my Ph.D. project.	<a href="https://github.com/scipo-code/ordinator-api.git">github.com/scipo-code/ordinator-api.git</a>
Technology	<b>Matheuristics in Maintenance Scheduling</b> Large Neighborhood Search based matheuristics for the maintenance scheduling problem.	<a href="https://github.com/brunbjerg/MaintenanceSchedulingMatheuristic.git">github.com/brunbjerg/MaintenanceSchedulingMatheuristic.git</a>
Technology	<b>Optimization of Fuel Delivery</b> Master thesis project.	<a href="https://github.com/brunbjerg/optimization-of-fuel-delivery.git">github.com/brunbjerg/optimization-of-fuel-delivery.git</a>
Technology	<b>Poker Stochastic Probability Simulator</b> Hobby project Frontend: <a href="https://github.com/brunbjerg/probker-frontend.git">github.com/brunbjerg/probker-frontend.git</a>	<a href="https://github.com/brunbjerg/probker.git">github.com/brunbjerg/probker.git</a>

## EDUCATION

2/2023 - 2/2026	<b>Ph.D. in Multi-actor Maintenance Scheduling</b> Multi-threaded Scheduling Systems, API development, Interviewing, Testing with Stakeholders.	Total Energies, DTU Construct, and DTU Management
9/2020 - 12/2022	<b>Master in Mathematical Modelling and Computation - Operation Research</b> Metaheuristics, Statistics, Programming.	DTU Compute
9/2017 - 7/2020	<b>Bachelor in Mathematical Engineering - Operation Research</b> Algorithms, Operation Research.	DTU Compute

## EXPERIENCE

2017 - 2022	<b>Teaching Assistant</b> • Mathematical Programming Modelling • Programming of Scientific Software Teaching	Technical University of Denmark
1/2010 - 12/2020	<b>Production Operator and Maintenance Technician</b> I have worked for years at my familie's factory working with everything from production tasks to maintaining and commissioning new machines. This has proven to be a valuable experience throughout my current Ph.D. programme. Ownership	Nordic Sense
9/2016 - 7/2017	<b>Production Operator and Maintenance Technician</b> Production technician for 4 months and Maintenance technician for 5 months Practical Production / Practical Maintenance	Grundfos
7/2015 - 6/2016	<b>Event promotor</b> Shows that I can step out of my introverted comfort zone when I need to. Event coordination	Det Blå Danmark

## LANGUAGES

<b>English:</b>	Fluent
<b>Danish:</b>	Native
<b>French:</b>	Want to learn

## BLINDSPOTS

<b>Communication:</b>	Introverted. Tends towards solitary work. Prefer fewer but close work partners.
<b>Consistency:</b>	Strategic thinker with focus on vision. Beneficial to be part of a team on important milestones.
